

BULLETIN

Date: April 21, 2022

Bulletin No: 2022-003

SUBJECT: Private Provider Registration Renewal

EFFECTIVE DATE: Immediately

Asael Ace Marrero, AIA
Director of Building

EXECUTIVE SUMMARY: Private Provider firms must complete their registration renewals by March 31, 2022. Failure to do so will result of a suspension of all new permits.

APPLICABILITY: All previously registered Private Provider firms who have not completed their annual renewal of registration.

NOTICE

Under Florida law, the building department is authorized to establish a system of registration for Private Providers and Duly Authorized Representatives. The City of Miami requires that firms renew their registration annually by March 31.

Delinquent registrations may lead to a suspension of privileges for all new projects. Private Provider paperwork will not be processed, and projects will be delayed until the registration process is completed. To avoid this, submit your renewal documents promptly to privateprovider@miamigov.com.
